WORK EXPERIENCE

North Carolina State University Libraries

Associate Head of Collections and Research Strategy (March 2016 - present)

- Share management responsibility for the department and 11 million dollar collections budget.
- Partner with and support scholars across the research enterprise
- Advance the Libraries' efforts in research engagement and student success.
- Provide leadership and share responsibility for articulating and advancing the Libraries' collections development vision.
- Helps lead ongoing efforts to re-envision the role of subject specialist librarians; provides guidance, direction, support, and assessment.
- Advances efforts to engage faculty across the research enterprise, with particular focus on developing the Libraries as a locus for open science support.
- Participates in efforts to connect faculty with high-technology spaces and with services related to large-scale visualization, data management, and interactive computing.
- Works closely with researchers in the creation and management of scholarship and research assets; represents the library in university research enterprise communities.
- Identifies tools and technologies to enhance interdisciplinary collaboration, bibliometric analysis, text mining, and use of disciplinary repositories of data and open scholarship.

Duke University Press

Director of Publishing Services, Project Euclid (October 2014 - March 2016)

Project Euclid Manager (September 2008 – October 2014)

- Responsible for the administration, growth, and overall management of Project Euclid, an online platform and international community for mathematics and statistics.
- Provide administrative oversight and coordination for all Project Euclid related activities between the two co-managing partners, Duke University Press and Cornell University Library.
- Ensure continued growth and financial stability of Project Euclid.
- Develop and maintain relationships Project Euclid content editors, publishers, and Advisory Board members.
- Seek and negotiate publishing, licensing, and distribution agreements on behalf of Project Euclid with library consortia, publishers, and vendors.
- Oversee and coordinate marketing and public relations for Project Euclid.
- Oversee and coordinate customer service for Project Euclid users, partner publishers, libraries, and vendors.
- Responsible for oversight of Project Euclid staff and interns.
- Work with Cornell University Library on technology, administration, and development of Project Euclid online platform.
- Work with Project Euclid Governing Cabinet and Advisory Board on strategic planning.
