Creator and faculty advisor to an ongoing project and suite of learning opportunities designed to stimulate early career researchers' engagement with open science practices through hands-on learning, conversations with leaders in the field, and mentorship opportunities.

Mentorship

Advisor, Danielle Robinson, 2016 Mozilla Fellow for Science

Mentoring Ms. Robinson's work in this highly competitive program, which supports the work of early career researchers who want to influence the future of open scientific communication and data sharing within their communities.

OpenCon Scholarship Fund

Established the OHSU Library's program to support student and postdoctoral attendance at OpenCon, an early career researcher conference on modern scientific communication and open data, open access, and open educational resources.

OUTREACH ACTIVITIES

Open Data Day, 2017

Co-organized the Portland instance of this international event to provide space, networking, and education for writing applications, creating visualizations, and publishing analyses using open public data.

Science Hack Day PDX, 2016

Co-founded and organized Science Hack Day PDX, which brings together scientists, software developers, designers, librarians, and engineers to prototype novel ideas in 24 hours. Science Hack Day provides attendees with opportunity to learn about cross-disciplinary collaboration and engagement with open tools and software for science.
